**Subject:** Weight Scale Issues

Hi,  
Please pass this along to the persons in charge of MMA fights in Nanaimo.

I just want to inform you that in last weekends Battlefield event occurred some serious weight scale issues creating some very unfair situations.

Apparently someone from the someone re-calibrated the scale to read 4 pounds under weight shortly before the official weight-in. These scales are professional grade scales and should measure accurately at all times. There is absolutely no reason why they should be ever off by that much.

Obviously being out by 4 pounds greatly effects the fairness since it is exactly those last few pounds which are the hardest to loose and gave anyone who did not had to cut them a huge advantage . Only a fighter can really appreciate the graveness of this manipulation.

Who benefitted from the manipulation of the scale can be easily seen  
here: <http://topmmanews.com/2012/02/11/bfl-13-weigh-in-results/>

Please look into the issue to insure that no one can temper with the scale during event within your jurisdiction.

Thank You,

--
