Q1 What topic would you like the engagement session to focus on?For example - Topic: Community Engagement
Problem to Solve: How can Nanaimo become more engaged?

Topic

What kind of mechanism for continual on-line public engagement can we devise?

Problem you would like solved.

Public engagement should be collecting kudos, suggestions, and complaints about the City's services just as many private on-line corporations do to keep up with public sentiment.

Q2 Are there other topics/questions that you would also be interested in?If so, please identify them below in the text area. You can specify multiple topics/questions if you like!

All my suggestions at this time revolve around a mechanism for continual public engagement.

Economic Dev.

Problem you would like solved.

Source a parcel of undeveloped ALR land or a track of land 5 acres or larger so the homeless population can grow their food and have live stock to eat and sell extra of and where they can craft items to sell. Many volunteers will help by drilling wells, septic systems, teaching gardening and structuring a solar system. If tents or portable tiny houses are built, these are considered chattels and not a fixture to adhere to zoning.

I am interested in the more general engagement piece as well. It is strange to me that your first two suggested topics are about engagement but the third is a topic somewhat removed from the theme.

I would like the topic of how the City can better engage with Snuneymuxw First Nation.

Q1 What topic would you like the engagement session to focus on?For example - Topic: Community Engagement
 Problem to Solve: How can Nanaimo become more engaged?

Topic	Downtown
Problem you would like solved.	Lack of fun, historical, art, foodie venues. In small cities like Squamish, Cumberland, Courtney and bigger like Portland you see an awesome vibe and pride in thier downtown core. Celebrating the natural beauty and history. We have so many empty buildings, crazy high rent that is a deterrence to business. We should be campaigning companies like cactus club, tap houses and such to invest and add some much value to our city. The amount of generic mall stores and restaurants in this city far out weighs any real wow factor.

Development on Hammond Bay Rd. Traffic is mayhem. Better patrols, flagging staff (especially at Williamson Rd and Hammond Bay) at drop off and pick up at Frank Ney Elementry School.

So many new developments are down by completely mowing down all trees, flora and fauna. Natural habitats are being destroyed at an alarming rate. If we want to be successful city with developments we should be looking at how Comox, Cumberland, Tofino, Ucluet, Squamish and Portland have put sustainability and advancement into synchronicity.

Mt Benson development and possibly becoming like the Grouse Grind. Fantastic idea. Could also look like the Sea to sky gondola in Squamish. With a tap house restaurant at the top. With the trail being professionally maintained and having the tourism industry looking after the historical and cultural needs, it could become such a magnet for adventure tourism. Development of the mtn biking, trail running race series could also bring much excitement to our city with events being held here.

Developing a botanical gardens on city land maintaned and built by VIU would be another asset celebrating our natural beauty, creating a beautiful green space, supporting our local artists with installations throughout, having the carpentry, geological, art, indigenous history students all collaborating to create a space uniquely our own would be fabulous. We then could hold weddings, food and wine festival, art shows...Buchart Gardens, Tofino Botanical Gardens and Milner are just three very successful spaces on the Island.

Q1 What topic would you like the engagement session to focus on? For example - Topic: Community Engagement
Problem to Solve: How can Nanaimo become more engaged?

Topic	Making Nanaimo even better quality city for citizens and tourists
Problem you would like solved.	affordable housing: building tiny homes: they can be for homeless AND also for more wealthy, so luxurious tiny homes. Another thing: we NEED desperately community engaging alive again Nanaimo Recycling Exchange.

Q2 Are there other topics/questions that you would also be interested in? If so, please identify them below in the text area. You can specify multiple topics/questions if you like!

Once again: tiny homes for homeless, employment of homeless to give them a chance (everybody deserves a chance, they are NOT all addicts, some are educated and just vulnerable), tiny homes for middle class Millennials, Nanaimo Recycling Exchange for community (cheap used items market, education, employment and zero waste are VERY important), making bylaws protecting trees on private and municipal properties, before they are all cut, creating community kitchens, places where people can rent tools, garden tools, household items, share abundance of garden produce. Displaying more Indigenous art permanently in Parks.
