P R E P

RELEVANT EVIDENCE BASED PLANNING

P
PROPOSE

Planner describes everything that is relevant and currently known about the economy of a particular piece of land or a particular issue related to land use that requires some sort of decision to resolve.

R
RESEARCH

Planner seeks verification of what is known about a particular piece of land or problem.

E
ENGAGE

Planner asks the public for more information:
Are there issues that have been missed?
Are the criteria relevant?
What are their experiences?
How, when, why do they use this area?
What could be done to improve the ability to use this area?

P
PRESENT

Planner presents the plan highlighting the changes that have been made since the first proposal was made.
