

AGENDA GOVERNANCE AND PRIORITIES COMMITTEE MEETING

Monday, June 14, 2021, 1:00 P.M. SHAW AUDITORIUM, VANCOUVER ISLAND CONFERENCE CENTRE 80 COMMERCIAL STREET, NANAIMO, BC

SCHEDLUED RECESS 3:00 P.M.

			Pages					
1.	CALL	THE MEETING TO ORDER:						
	[Note:	[Note: This meeting will be live streamed and video recorded for the public.]						
2.	INTRO	TRODUCTION OF LATE ITEMS:						
3.	APPR	APPROVAL OF THE AGENDA:						
4.	ADOP	ADOPTION OF THE MINUTES:						
	a.	Minutes	3 - 11					
		Minutes of the Governance and Priorities Committee Meeting held virtually on Monday, 2021-MAY-31 at 10:01 a.m.						
5.	AGEN	GENDA PLANNING:						
	a.	Governance and Priorities Committee Agenda Planning	12 - 18					
		To be introduced by Sheila Gurrie, Director, Legislative Services.						
6.	REPO	RTS:						
	a.	REIMAGINE NANAIMO:						
		1. REIMAGINE Nanaimo - Scenarios Workshop and Public Engagement Update	19 - 31					
		To be introduced by Dale Lindsay, General Manager, Development Services.						
		Presentation:						
		1. Lisa Bhopalsingh, Manager, Community Planning.						

b. GOVERNANCE AND MANAGEMENT EXCELLENCE:

1. Policy Renewal Project Update

To be introduced by Sheila Gurrie, Director, Legislative Services.

[Note: PowerPoint presentation to be distributed on the Addendum.]

Purpose: To update Council on the status of the Policy and Bylaw Renewal Projects and to present a number of outdated or redundant Council policies for repeal.

Presentation:

1. Karen Robertson, Deputy City Clerk, Legislative Services.

Recommendation: That the Governance and Priorities Committee recommend that Council repeal the 101 outdated or redundant Council policies highlighted in red within the Table of Contents linked to the June 14, 2021 report by the Deputy City Clerk.

MINUTES GOVERNANCE AND PRIORITIES COMMITTEE MEETING VIRTUAL MEETING MONDAY, 2021-MAY-31, AT 10:01 A.M.

Present:	Councillor Z. Maartman, Chair (joined electronically) Mayor L. Krog, (joined electronically) Councillor S. D. Armstrong (joined electronically 11:00 a.m.) Councillor D. Bonner (joined electronically 10:53 a.m.) Councillor T. Brown (joined electronically) Councillor B. Geselbracht (joined electronically) Councillor E. Hemmens (joined electronically) Councillor I. W. Thorpe (joined electronically) Councillor J. Turley (joined electronically)
Staff:	 J. Rudolph, Chief Administrative Officer (joined electronically) R. Harding, General Manager, Parks, Recreation and Culture (joined electronically) S. Legin, General Manager, Corporate Services (joined electronically) D. Lindsay, General Manager, Development Services (joined electronically) B. Sims, General Manager, Engineering and Public Works (joined electronically) T. Doyle, Fire Chief (joined electronically) J. Holm, Director, Development Approvals (joined electronically) P. Rosen, Director, Engineering (joined electronically) L. Bhopalsingh, Manager, Community Planning (joined electronically) F. Farrokhi, Manager, Communications (joined electronically) J. Rose, Manager, Transportation (joined electronically) D. Blackwood, Client Support Specialist (joined electronically) K. Gerard, Recording Secretary (joined electronically)

1. CALL THE GOVERNANCE AND PRIORITIES COMMITTEE MEETING TO ORDER:

The Governance and Priorities Committee Meeting was called to order at 10:01 a.m.

Councillor Maartman, Chair, stated that the flags at City Hall would be lowered to half-mast for the week to recognize the lost Indigenous children of the residential school system in Canada. Councillor Maartman advised that Council and the City of Nanaimo stand with all the families of those children and recognize that this is a negative chapter in Canadian history.

2. <u>APPROVAL OF THE AGENDA:</u>

It was moved and seconded that the Agenda, be adopted. The motion carried unanimously.

3. ADOPTION OF THE MINUTES:

It was moved and seconded that the Minutes of the Governance and Priorities Committee meeting held virtually on Monday, 2021-MAY-10 at 1:00 p.m. be adopted as circulated. The motion carried unanimously.

4. <u>AGENDA PLANNING:</u>

1. <u>Governance and Priorities Committee Agenda Planning</u>

Introduced by Sheila Gurrie, Director, Legislative Services.

Sheila Gurrie, Director, Legislative Services, spoke regarding the agenda planning documents and stated that Council will have an opportunity in late June or early July to discuss the priority items and to make changes or additions if needed.

5. <u>REPORTS:</u>

a. <u>REIMAGINE NANAIMO:</u>

1. <u>Mobility Update for REIMAGINE NANAIMO</u>

Introduced by Bill Sims, General Manager, Engineering and Public Works.

Presentation:

- 1. Jamie Rose, Manager, Transportation, and Gavin Davidson, GJD, Planning and Design, provided the Committee with a PowerPoint presentation. Highlights included:
 - Phase 1 of the REIMAGINE Nanaimo process involved gathering information and community feedback
 - Phase 2 will include exploring options with a Council workshop to be held on 2021-MAY-31 regarding land use and active transportation
 - Staff are working with BC Transit and the Regional District of Nanaimo (RDN) regarding land use planning and active transportation
 - Phase 3 will involve development of the plans based on Council and community feedback
 - Staff are working with all partnering agencies to ensure they understand the needs and wants of the community, stakeholders, BC Transit and the RDN
 - Working along side the Ministry of Transportation to ensure land use and mobility planning align with the Ministries goals and visions
 - Safety is the primary concern of the community along with connectivity, sustainability, accessibility and affordability

- Staff have shared information gathered through the REIMAGINE Nanaimo process with BC Transit and the RDN
- Data collected through REIMAGINE Nanaimo shows that the areas in Nanaimo with the longest walk and transit wait times are also the lower income areas

Committee discussion took place regarding investment and education in lower income areas to promote walkability, ridership with BC Transit and cycling.

Jamie Rose, Manager, Transportation, continued his presentation. Highlights included:

- Once the Phase 2 engagement process is completed Staff will return to Council or the Committee with land use scenarios regarding active transportation and explore options and plan for the implementation strategies
- Phase 1 allowed Staff to see where there are gaps in walkability and cycling and how those gaps can be filled
- Completion of Metral Drive will connect all ages and abilities from the North End to downtown Nanaimo via the E&N Trail system
- Land use planning will enable Staff and Council to see areas where building and investing will have the most positive impact on active transportation
- The normal method of data collection used for analysis has been fairly technical and left the public with an unclear picture of the priority areas for pedestrian and cycling safety
- Staff are looking to find a way to be more transparent and easily understood by the public and enhance community feedback/concerns

Gavin Davidson, GJD, Planning and Design, continued the presentation. Highlights included:

- Pedestrian planning scope study included existing processes and improvements, best practices, Federal and Provincial guidance and recommendations to the Committee
- Comparison cities included Bellingham, WA, Boulder, CO, and Kelowna, BC which are relative in size to Nanaimo
- Findings showed that Nanaimo is lower in sustainable transportation but is in a good position to integrate active transportation into future development/land use plans
- Nanaimo's long term sustainable mode share target is lower than the comparable cities
- Infrastructure improvement process should include the following:
 - 1. Strategic planning
 - 2. Identification and prioritization
 - 3. Selection of treatment options
 - 4. Implementation

- 5. Monitoring and evaluation
- 6. Communication, engagement and celebration
- Nanaimo's Transportation Master Plan provides direction and guides the policies and principles for investment, vision and goals that support the City's commitment to active transportation
- Strategic planning needs to ensure it acknowledges missing pedestrian links on high speed roads and roads built before City standards of active transportation were recognized
- Strategic Planning recommendations include:
 - Working toward consensus on the vision and principles
 - Combine long range targets with short term goals
 - Support targets with a flexible and adaptive action plan
 - Take advantage of current projects to improve or extend the pedestrian network
- Identification and Prioritization recommendations include:
 - Ensure the process is transparent
 - Use criteria that is easy to calculate
 - Establish proactive and reactive measures
- Take a proactive approach by building pedestrian and cycling links into current and future development projects
- Bellingham, WA, uses a scoring method to prioritize intersections and areas in need of improvements based on safety, posted speed and traffic volumes
- These scores are easy to understand for Staff and the public

Committee discussion took place regarding gentrification and change in priorities.

Gavin Davidson, GJD, Planning and Design, continued the presentation. Highlights included:

- Evaluating areas in need of pedestrian improvement should also take into account professional judgement, existing conditions, average speed of vehicles, available funding and resources
- Implementation can include curb extension, overhead flashing lights, medians and raised crosswalks
- Selection of treatment option recommendations include:
 - Creating and using a decision making flowchart
 - Allow for exceptions and consideration of other options
 - Make the selection process more transparent
 - Use best practises in treatment options
- Through transparency the public can see the factors that influence priority items such as cost, project readiness and availability of resources
- Implementation recommendations include:
 - Clearly define the factors that influence implementation
 - Seek alliances to pursue shared objectives
 - Focus limited resources where they will leverage impact

- Monitoring and evaluation allows for public input and concerns on pilot pedestrian projects and for Staff to hear how changes directly affect those with accessibility concerns
- Monitoring and evaluation recommendations include:
 - Establish and track progress toward a robust set of targets
 - Include long-range and achievable interim targets
 - Recognize that perceived and actual outcomes are important
- The goals included in the Transportation Master plan include pedestrian safety, accessibility and to create more and better places to walk
- The City has a goal to increase walkability by 12% by 2041 but it is important to set goals and targets for every 2 – 3 years to see if targets are being met
- Communication and Engagement recommendations include:
 - Consistent and measured communications and engagement
 - Expand the diversity and frequency of engagement
 - Include celebration or "quick wins" as a way to build community support
- A total of nineteen recommendations have been provided and broken down into six categories
- Next steps include:
 - Updating the process for sidewalk infill and roadway crossings
 - develop a long-range pedestrian plan that aligns with future land use
 - create short and long-range targets that align with Nanaimo's goals

Councillor Bonner joined the meeting electronically at 10:53 a.m.

Committee discussion took place. Highlights included:

- Concerns regarding commercial delivery routes and frequent stopping areas
- Lack of pull out areas for transit
- Conducting a study on the increase or decrease in delivery times for commercial and/or delivery companies within the complete streets projects

Jamie Rose, Manager, Transportation, advised the Committee that a conversation regarding goods movement is important in this process as it is essential to our daily lives and the economy.

Committee discussion took place. Highlights included:

• Boulder, CO, and how it achieved 42% sustainable transportation modes

• Transparency around planning and implementation of land use and active transportation

Gavin Davidson, GJD, Planning and Design, advised the Committee that:

- Boulder, CO, gained their 42% sustainable transportation mode by building a community that aligns with all the objectives stated in their transportation plan, created an effective transit system and created a cycling network that connects key origins and destinations
- Transparency could include a web based portal that is easily accessible to the community where the short and long-term goals are clearly defined and shows the outcomes of monitoring pilot projects before and after completion
- The portal could also include an area for public input and feedback

Councillor Armstrong joined the meeting electronically at 11:00 a.m.

Committee discussion took place. Highlights included:

- Concerns regarding narrow lanes which can effect transit and commercial deliveries as well as cause an increase in frustration for motor vehicle drivers
- The City meeting and completing the goals and objectives of the Transportation Master Plan
- Refining the active transportation nodes

Gavin Davidson, GJD, Planning and Design, advised the Committee that ensuring space for commercial and emergency vehicles should be done on a case-by-case basis. He stated that this is the reason monitoring pilot or completed projects is so important.

Jamie Rose, Manager, Transportation, continued the presentation. Highlights included:

- Staff are looking at ways to be more opportunistic when projects are planned to ensure that active transportation can be included in the project
- Land use scenarios will include visioning exercises to show the potential growth of the community and how this will integrate into the Transportation Master Plan
- Goals identified through Phase 1 of the REIMAGINE Nanaimo process include reducing injury rates with a Vision Zero target in Phase 3
- The safer systems approach involves four main factors: drivers, operating speed, road designs and vehicle designs
- The design of complete streets is based on ensuring separation from vehicles, pedestrians and cyclists and creating

an environment that makes it less comfortable for motorists to speed

• Staff plan on having a workshop with the RDN and BC Transit after Phase 2 and the land use scenarios are created

Committee discussion took place regarding the complete street design, safety for residents backing out of their driveways on Metral Drive, monitoring Metral Drive for safety and a decrease or increase in traffic collisions.

The Governance and Priorities Committee recessed at 11:29 a.m. The Governance and Priorities Committee reconvened at 11:35 a.m.

b. <u>COMMUNITY WELLNESS/LIVABILITY:</u>

1. <u>Councillor Maartman re: Permanent Recreational Vehicle Accommodation</u>

Introduced by Dale Lindsay, General Manager, Development Services.

Presentation:

- 1. Jeremy Holm, Director, Development Approvals, provided the Committee with a PowerPoint presentation. Highlights included:
 - The City does have provisions for allowing temporary and permanent accommodation in recreational vehicles (RV's)
 - Temporary accommodations are allowed:
 - During construction of a single dwelling for residents of the dwelling
 - For non-paying guests of the owner/occupant of a single dwelling for a maximum of 42 days in a calendar year
 - In a campground on properties zoned Agricultural Rural Residential (AR1) for up to 90 days in a calendar year
 - Nanaimo is unique in that we have locations where temporary and permanent RV accommodations are allowed
 - Temporary or permanent locations include a portion of Living Forest Campground, Resort on the Lake (1142 Woss Lake Drive) and Westwood Lake RV (380 Westwood Road)
 - Challenges with permanent accommodation in an RV outside of the specified zones include grey and black water disposal, electrical systems, and how to charge for property taxes and user rate fees
 - The Affordable Housing Strategy recommends consideration of allowing RV's in mobile home parks and creation of other areas where RV's could be lived in on a permanent basis
 - Staff are researching expanding the definition of secondary suites to include modular units based on lot size and services (hook-ups) available

 Allowing more permanent RV accommodations could discourage funding and grants for more permanent housing solutions

Committee discussion took place. Highlights included:

- Concerns regarding capacity to hold grey water and sewage waste and where these can be offloaded
- Steps needed to be taken in order to allow more permanent RV accommodations such as bylaws or policies
- Creating a bylaw or policy that clearly lays out the rules for RV accommodation to address disposal of grey water and sewage, proper water and electrical hook-ups and safety much like a carriage house
- Allowing for RV's in mobile home parks or creating more mobile home parks

Jeremy Holm, Director, Development Approvals, continued his presentation. Highlights included:

- Staff could return to the Committee at a future meeting with a fulsome report for discussion
- Consultation and public engagement would be required
- The RDN may be better equipped to accommodate another mobile home park as they have more rural land use areas
- Concerns regarding displacement of people who currently live in mobile home parks in park type RV models which are designed for permanent accommodation

Dale Lindsay, General Manager, Development Services, advised the Committee that:

- In order to change the zoning an amendment would have to be made to the zoning bylaw which would require consultation and a Public Hearing
- There has not been a new mobile home park built in Nanaimo for approximately 25 years
- There is little land in Nanaimo left suitable for mobile home parks and the land that remains is more suited to high density developments

Committee discussion took place. Highlights included:

- Insurance companies have no issue insuring RV's for permanent use
- Ensuring a minimize property size if an owner wanted to allow a permanent RV on their property as well as property water, sewer and electrical hook ups

It was moved and seconded that the Governance and Priorities Committee recommend that Council direct Staff to prepare a report on the options available to support permanent recreation vehicle accommodation. The motion carried. *Opposed: Mayor Krog, Councillors Brown and Thorpe*

c. <u>GOVERNANCE AND MANAGEMENT EXCELLENCE:</u>

1. <u>2021 Council Alignment Update</u>

Jake Rudolph, Chief Administrative Officer, spoke regarding the 2021 Council Alignment document and requested that the Committee receive the document for information or asked the Committee if an in depth discussion is required at a future Governance and Priorities Committee Meeting.

By unanimous consent the 2021 Council Alignment document was received for information.

6. ADJOURNMENT:

It was moved and seconded at 12:15 p.m. that the meeting terminate. The motion carried unanimously.

Air quality: so everyone has good quality air to breathe Monitored hourly at the provincial level.

so our	ecosystems are healt	thy and cared for
or	Draft Target	Baseline (if known)
dicated Zoning)	» General: increase » Specific target TBD	2,152 ha

	so our lands and wat sustainably	ers are healthy and
or	Draft Target	Baseline (if known)
Samples S Quality	 Reduced number of samples that fail to meet guidelines 	TBD

ge: so the impacts of climate change are present and future generations				
or	Draft Target	Baseline (if known)		
house O2e)	 » By 2030 reduce to 50%-58% below 2010 » By 2050 reduce to 94%-107% below 2010 	465,000 tCO2e (2010)		
land health: so our lands and waters are ared for / managed sustainably				
or	Draft Target	Baseline (if known)		
dicated	» General: increase	2,152 ha		

» Specific target TBD

A HEALTHY NANAIMO: COMMUNITY WELL-BEING & LIVABILITY

so everyone has opportunity to have a healthy, safe, and affordable home			
Element	Draft Indicator	Draft Target	Baseline (if known)
Chronic / Episodic Homelessness	Point-in-time count of people experiencing homelessness	» Elimination of homelessness by 2025	433 (2020)
Rental Housing Affordability	Average rent of a 2-Bedroom Apartment	» TBD	\$1,263 (2020)
Vacancy Rate	Percent of vacancies in rental accommodation	» 3%-5%	1% (2020)
Mix of Housing Types	Proportion of single- family, ground-oriented, and apartment housing types	» TBD	 » 60% single-family » 18% ground-oriented » 22% apartment (2020)

AN ENABLED NANAIMO: ECONOMIC PROSPERITY

so everyone has opportunity to find good employment and businesses can thrive			
Element	Draft Indicator	Draft Target	Baseline (if known)
Working Age Population	Percent of population that are of an age likely to be in the workforce (15-64)	» 67% of total population	63% (2020)
Non-Residential Building Permits	Value of commercial and public building permits issued	» General: increase » Specific target TBD	\$37.5 million (2020)
Ample & Diverse Business Opportunities	Number of total businesses and businesses with employees	» General: increase » Specific target TBD	6,281 businesses with 1+ employees (2020)

A CONNECTED NANAIMO: EQUITABLE ACCESS & MOBILITY

Element	Draft Indicator	Draft Target	Baseline (if known)
Transportation by Mode	Trips made by different modes of transportation	Modal split by 2041: » 12% walking » 4% cycling » 8% transit » 76% vehicle	2016 Modal split: » 6% walking » 2% cycling » 4% transit » 86% vehicle
Distance Driven	Average distance driven per person per day	» 10 km per day / person by 2041	14 km per day / person (2011)
Access to Daily Needs	Number of households within a 400 m walk to employment lands, essential services, schools, transit, recreation services, parks, and healthcare	» TBD	 » Employment lands: TBD » Essential Services: 8% » Elementary Schools: 4% » Transit: TBD » Recreation Facilities: TBD » Parks: 71% » Healthcare: 5%
Growth in Nodes & Corridors	Proportion of growth occurring in designated growth areas - urban nodes and corridors	» TBD	TBD
Traffic Injury Rate	Number of reported crashes throughout the City	» Vision zero	TBD

AN EMPOWERED NANAIMO: DIVERSITY, CULTURE, AND SOCIAL INTEGRITY

so everyone can thrive and have opportunities to connect and participate in a way that fulfills them				
Element	Draft Indicator	Draft Target	Baseline (if known)	
Inclusion & Diversity	TBD	» TBD	TBD	
Investment in Arts, Culture and Heritage	Dollars being invested into arts, culture, and heritage	» General: increase » Specific target TBD	TBD	
Participation in PRC Programs and Services	Number of people participating in PRC programs and services	» General: increase » Specific target TBD	TBD	
Public Waterfront Access	Length of waterfront with public access and number of publicly accessible waterfront	» Increase	TBD	

so everyone can thrive and have opportunities to connect and participate in a way that fulfills them				
Element	Draft Indicator	Draft Target	Baseline (if known)	
Inclusion & Diversity	TBD	» TBD	TBD	
Investment in Arts, Culture and Heritage	Dollars being invested into arts, culture, and heritage	» General: increase» Specific target TBD	TBD

Staff Report for Decision

File Number: GOV-03

DATE OF MEETING JUNE 14, 2021

AUTHORED BY KAREN ROBERTSON, DEPUTY CITY CLERK

SUBJECT POLICY AND BYLAW RENEWAL PROJECT UPDATE

OVERVIEW

Purpose of Report

To update Council on the status of the Policy and Bylaw Renewal Projects and to present a number of outdated or redundant Council policies for repeal.

Recommendation

That the Governance and Priorities Committee recommend that Council repeal the 101 outdated or redundant Council policies highlighted in red within the Table of Contents linked to the June 14, 2021 report by the Deputy City Clerk.

BACKGROUND

As outlined in the Governance Excellence section of Council's Strategic Plan, one of the action items identified was to have a comprehensive review undertaken on Council's bylaws and policies.

On October 19, 2020 staff presented a report that provided a timeline and deliverables for undertaking both projects (see Attachment 1).

Staff is bringing forward this report to provide Council with a status update on the deliverables and to present a number of outdated or redundant Council policies for formal repeal.

DISCUSSION

Bylaw Project Update:

The following 5 deliverables for the bylaw project were outlined in the October 19, 2020 staff report that were slotted for completion or noted as on-going for 2021. The status of those deliverables are as follows:

- 1. To develop a new Animal Responsibility Bylaw (original target for completion December 21, 2020)
 - Status: It was anticipated that the new Animal Responsibility Bylaw would be adopted by the end of 2020; however, at the November 16, 2020 meeting, Council asked for further public input and directed staff to post the bylaw to the City's Bang the Table platform for 3 weeks. Staff were then asked to create a report on that input for consideration at a January,

2021 meeting. The report and revised bylaw was presented to Council at the January 11th GPC and given its first three readings on February 1, 2021 and sent to the Ministry for approval. The Ministry provided their response and requested some minor amendments be made to the bylaw. The requested changes were presented to Council on June 7, 2021 and the bylaw was given third reading, as amended. The bylaw has now been sent back to the Ministry and is awaiting approval.

- Development of a Master Bylaw Registry for the City's 6500 bylaws (original target for completion 2021-Q4)
 - Status: Work commenced on the Master Bylaw Registry in Q4 of 2020; however, as noted above, the research, development, and stakeholder/ community consultation associated with the new Animal Responsibility Bylaw took longer than anticipated. There was also a desire to shift the focus to the policy project so that it could be completed in 2021. As a result, the target for completion of this project has changed. Staff will be in a position to resume work on the Bylaw Registry in Q3 and Q4 of 2021.
- 3. Streamlining the City's ticketing system and doing housekeeping amendments to include consistent violation and penalty language within each regulatory bylaw (on-going)
 - Status: To date, 5 regulatory bylaws have had their violation and penalty language updated which also prompted required amendments to the Bylaw Notice Enforcement Bylaw. As regulatory bylaws continue to come forward for amendments, the language will be reviewed and updated at the same time.
- 4. To develop a comprehensive Fees and Charges Bylaw whereby any bylaws that are up for amendments would have their fees transferred into one single Fees and Charges Bylaw (on-going).
 - Status: This project is also on-going whereby any bylaws that come up for amendments that have fees included in them will be transferred to the Fees and Charges bylaw. Currently the only bylaw that has come forward in this regard related to the licencing fees associated with the new Animal Responsibility Bylaw.
- 5. Scanning of all "signed" bylaws (target for completion 2021-Q4)

Status: This project has been completed ahead of schedule.

Policy Project Update:

Commence with Developing a Master Policy Registry (target for completion 2021)

Staff identified that the policy project would commence once the bylaw project was well underway and that more specific deliverables on the project would be identified in conjunction with an update to Council on the bylaw project. However, as noted above, there was a desire to move the timeline up for the policy project so that it could be completed in 2021. As such,

staff's priorities shifted from the bylaw project to the policy project. The following work has been undertaken on the policy project since that time:

- Established new Council and Administrative Policy Templates (December, 2020)
- Developed a Master Policy Registry outline with a numbering system for Council and Administrative policies (December, 2020)
- Conducted an inventory on all Council policies (both electronic and hard copy) which included a fulsome audit of the historical Council minutes to confirm when the policies were endorsed by Council. Through this process, 283 Council policies were identified. Seventy did not meet the criteria of being a true Council policy as they were simply resolutions of Council placed into a policy template; 28 were confirmed as historical which had been formally repealed by Council. This left 185 policies that needed to be reviewed by staff (December/January, 2021)
- Transferred all policies into the new templates (January, 2021)
- Introduced the Master Policy Registry and reformatted policies to the Senior Leadership Team and advised on next steps (February, 9, 2021)
- Met with each City department to apprise staff who develop policies of the project. During these meetings, staff were also advised that the next step would be to review the Council policies pertinent to their department and identify which ones were: 1) ok as is and still applicable; 2) which policies needed amending and why; and 3) which policies could be repealed and why. Staff were given until May 14, 2021 to provide their feedback (February 15 – mid March).
- While waiting for responses from staff on the Council policies, work commenced on compiling and auditing the Administrative polices from various departments (mid-March – May)
- Once responses on the Council policies were received, they were tallied and placed into a Table of Contents. The results were: 39 policies identified as "ok as is"; 45 policies identified as "needing amendments"; and 101 identified "for repeal" (May, 2021)
- Finalized Table of Contents and responses presented to the Senior Leadership Team for review (June 1, 2021)
- June 14, 2021 Project update report, with 101 Council policies proposed for repeal presented to the Governance & Priorities Committee for consideration (see link to the Table of Contents at the bottom of the staff report).

Please note, hyperlinks to each of the policies have been in-bedded in the title of each policy within the Table of Contents.

Next Steps:

Once Council has formally considered repealing the outdated and redundant policies, the Council policy section on the City's website will be updated. This will ensure that Council and members of the public have access to, and the ability to search, all the relevant Council policies. Staff will then turn to next phase of the project, which will be to update the 44 policies that were highlighted to be amended. Work will also continue with reviewing and updating Administrative policies. The goal is to have all Council policies updated before the end of 2021.

The Master Policy Registry (which is a tool for staff) will provide access to both current policies and historic ones for reference. The Registry is in an excel format which will make it easy for staff to search policies alphabetically, by policy number, or by department. This should eliminate the potential for policy conflict or duplication in the future.

OPTIONS

- 1. That the Governance and Priorities Committee recommend that Council repeal the 101 outdated or redundant Council policies highlighted in red within the Table of Contents attached to the June 14, 2021 report by the Deputy City Clerk.
 - The highlighted policies within the Table of Contents have been identified by staff as policies that are either redundant and conflict with other Council policies, are no longer legal, reflect outdated processes or practises, or are no longer relevant due to the age of the policy.
 - Should Council select this option, all 101 policies would be repealed and become historical Council policies.
 - Should Council wish to retain any of the 101 policies, staff recommend that Council consider option 2 whereby specific policies could be excluded from the list.
- 2. That the Governance and Priorities Committee recommend that Council repeal the Council policies highlighted in red within the Table of Contents attached to the June 14, 2021 report by the Deputy City Clerk, with the exception of the following policies: <u>(insert</u> <u>name of the specific policies Council wishes to retain)</u>
 - Under this option, Council could choose to retain specific policies that are slotted for repeal.

SUMMARY POINTS

- One of the action items identified in Council's Strategic Plan was to have a comprehensive review undertaken on Council's bylaws and policies.
- In October, 2020, staff presented a report that provided a timeline and deliverables for undertaking both projects.
- The status of the deliverables are being presented to Council along with 101 Council policies to be repealed that are either outdated, redundant, no longer legal, reflect outdated processes or practices, or are no longer relevant due to the age of the policy.

Information Report

File Number: GOV-03

AUTHORED BY KAREN ROBERTSON, DEPUTY CITY CLERK

SUBJECT Attachment 1 - 2020-OCT-20 - Bylaw and Policy Renewal Project Timeline.docx

OVERVIEW

Purpose of Report:

To provide Council with a timeline of the Bylaw and Policy Renewal Project as identified in Council's 2019 – 2022 Strategic Plan.

BACKGROUND

In 2019, Council underwent a planning process to define its vision and values for the 2019 – 2022 Council term. Within the Governance Excellence section of the Strategic Plan, one of the action items identified was to have a comprehensive review undertaken on Council's bylaws and policies as well as updates done on ones that were outdated, ineffective or inconsistent with current objectives. The Deputy City Clerk was assigned the responsibility to oversee and support this project and to develop a timeline for moving the project forward.

DISCUSSION

Prior to developing the timeline and assigning deliverables for the project, an audit of the City's Bylaws and Council policies was undertaken to identify gaps and determine priorities. The following project scope, work breakdown structure, and deliverables were developed based on that audit:

Project Scope:

The "bylaw project" is proposed to be conducted in two phases:

The first phase will consist of manually inputting all of the City's bylaws into a Master Bylaw Registry. This is a critical first step as the audit identified historical gaps in how the bylaws were recorded making it challenging to determine what bylaws are current, what they repealed, which are amendments, missing, etc. Staff has developed a framework for the Registry where critical information will be recorded in one easily searchable Excel spreadsheet (see Attachment "A").

The audit also revealed that the City does not have scanned PDF versions of all signed bylaws. All bylaws are considered permanent records and the Corporate Officer (under Section 148 of the *Community Charter*) is legally responsible for the safekeeping of the bylaws. Therefore, it is crucial for business continuity purposes to have PDF copies of the original bylaws in the event of a flood, earthquake, or fire. As each bylaw is entered into the Registry and the information recorded, staff will make PDF copies of the bylaws.

After the bylaws have been recorded, an analysis of the active bylaws will be done to determine their status (fine as is, to be repealed, or needs updating).

During the second phase of the project, staff will develop a bylaw guide document and work with staff to modernize the bylaws that were identified in phase one for updating. Determining which bylaws will be addressed first will be based on risk, liability, applicability, revenue generation, etc. and drafted based on best practices, using plain language, to provide better enforceability. It is recognized that throughout the process bylaws based on Council priorities and operational needs will need to be updated or modernized sooner rather than later. Therefore, Council can expect to see amendments, rewrites, or development of bylaws on an on-going basis.

The "policy project" will also be conducted in phases. The first phase will consist of bringing forward a list of policies identified by staff as outdated for Council to repeal. As with the Bylaw Renewal Project, the next step will be to develop a Master Council Policy Registry and move forward with modernizing policies in the same manner as the bylaw project. Given the scope of the Bylaw project, the Policy Registry will commence after the Bylaw Registry is well underway. As with the priority bylaws mentioned above, there will be policies that need to be addressed on an on-going basis.

Work Breakdown Structure (Bylaw Renewal Project)

PHASE ONE - 2020-2021

Tasks	Timeline for Completion
Develop a Master Bylaw Registry of the City's approximately 6,500 bylaws (in	2021-Q4
Excel) that includes the following information for each bylaw:	
- Bylaw No. - Name of Bylaw	
- Readings	
- Assent of Electors (if applicable)	
- Date of Adoption	
- Amends Bylaw	
- Repeals Bylaw	
- Amended By	
- Repeal Date	
- Repealed By	
- Comments	
Attach hyperlinks within the Master Bylaw Registry to PDF versions of each	2021-Q4
bylaw	

Deliverable: Develop a Master Bylaw Registry

Deliverable: To repeal bylaws that are no longer relevant

During the development of the Master Bylaw Registry, bylaws that are active would be analyzed to ensure they are relevant and aligned with Council's stated strategic goals, priorities, and policy objectives. Where bylaws or regulations are seen to be irrelevant, outdated, ineffective, obsolete or inconsistent with current objectives, those bylaws would be identified for updating or earmarked for repeal.

Tasks	Timeline for Completion
While inputting bylaws into the Master Bylaw Registry, identify bylaws that are no longer relevant, and note the rationale for updating or repealing the bylaw.	2021-Q4
Quarterly – draft a "Bylaw Repeal Bylaw" to remove obsolete bylaws off the	2021-Q4
books	2021 01

Deliverable: To streamline the City's ticketing system and do housekeeping amendments to include consistent violation and penalty language within each regulatory bylaw so that Bylaw Enforcement Officers are able to issue the appropriate ticket for an offence.

Currently the City has the following four ticketing options:

- The Bylaw Offence Notice (BON) ticketing system. This system operates under the authority of the Bylaw Notice Enforcement Bylaw (implemented in 2012) and used for fines under \$500. The fines are administered through an Adjudication process vs. the Courts. It is a cost effective system administered by the City (with other local government participation) and used for the majority of offences. Regulatory bylaws that are not included in the BON system need to be added.
- 2. The Municipal Ticketing Information System (MTI) operates under the authority of the Municipal Ticketing System Bylaw and can be used for fines up to \$1,000. This system is administered through the Provincial Courts, which can be costly. The City has not used this system since the implementation of the BON system in 2012 as most of the City's fines are under \$500. It is anticipated that in the near future the legislation will be amended to increase the fine limit to \$1,000 for the BON system and the MTI system phased out. For these reasons, it is recommended that the MTI Bylaw be repealed.
- 3. The Long Form ticketing process (via the *Offence Act*) is for processing the most egregious infractions (i.e. cutting down multiple trees). It is administered through the Provincial Courts with the assistance of a Municipal Prosecutor. This system is used for fines over \$500 and up to \$50,000 (depending on the seriousness of the Offence).
- 4. The Super Ticket process, (under the authority of Section 263.1 of the *Community Charter*) is a Long Form process that the City enacted in 2005. It is administered through the Provincial Courts and was used for all tickets (prior to implementation of the BON system in 2012). This system is no longer relevant and should be abolished.

Tasks	Timeline for Completion
Draft a housekeeping amendment to the BON bylaw to update the Agreement (Schedule A) and update the Zoning Fine Schedule and include fines for the Management and Protection of Trees Bylaw. A bylaw amendment to remove reference to fines from the Zoning Bylaw (B4500) and Management and Protection of Trees Bylaw (B7126) would be done concurrently.	October 19, 2020 Council meeting
Repeal the MTI Bylaw as part of the first Bylaw Repeal project	2021 – Q1
Remove reference to the fines in the regulatory bylaws as they come up for renewal or amendment and ensure consistent offence clauses are included in all bylaws.	On-going

Deliverable: To develop a new Animal Responsibility Bylaw

On July 6, 2020, Council endorsed, in principle, the recommendations of the Animal Control Services review and directed staff to modernize the Licensing and Control of Animals Bylaw and to incorporate the recommendations of the service review.

Tasks	Timeline for Completion
Identify stakeholders and have preliminary discussions on desired outcomes for a new Bylaw.	Completed
Draft bylaw using the SPCA's Model Bylaw and bylaws from those jurisdictions who participate in Nanaimo's Bylaw Dispute Adjudication System as a framework. Include recommendations from stakeholders and those outlined in the service review.	Completed
Forward finalized draft bylaw to stakeholders for feedback: Note: concerns raised by Council and members of the public regarding mandatory sterilization of outdoor cats, identification for cats, removing breed	Completed
specific legislation, dogs in heat, and tethering were considered and incorporated into the draft.	
Feedback from stakeholders incorporated in the bylaw and circulate 2 nd draft	First part of October
Send finalized bylaw for legal review	3 rd Week of October
Present draft bylaw to Council.	November 9, 2020 GPC
Incorporate any Council feedback from the November 9, 2020 GPC meeting and forward to the December 7, 2020 meeting for consideration of first three readings. A new fees and charges bylaw (that incorporates the licensing and boarding fees will be introduced at the same meeting)	December 7, 2020
Bylaw Adoption	December 21, 2020
Once adopted, amendments will be required to the Parks and Regulation Bylaw and the Bylaw Notice Enforcement Bylaw.	December 21, 2020

Deliverable: To develop a comprehensive Fees and Charges Bylaw

Currently, fees and charges are outlined within various bylaws. Having a "one stop" comprehensive bylaw that lists all fees and charges would make it much easier for the public and staff to find the applicable fees that will reduce the number of enquires to the City.

Tasks	Timeline for Completion
To establish a Fees and Charges Bylaw that would be introduced in conjunction	December 7, 2020
with the Animal Responsibility Bylaw. This bylaw would be the starting point	Council Meeting for
and as various bylaws are amended, staff would take the opportunity to update	introduction.
the fees and charges bylaw at the same time.	Project will be on going.

Deliverable: To scan all "signed" bylaws

As bylaws are permanent records and the Corporate Officer is assigned the responsibility of ensuring bylaws are maintained and kept safe as outlined in Section 148 of the *Community Charter*, it is important that for business continuity purposes in the event of a flood, fire, or earthquake that the City has scanned copies of all signed bylaws.

Tasks	Timeline for Completion
This project got underway in the spring of 2020 and many bylaws have been scanned. Those remaining will be scanned while the bylaws are being added to the Master Bylaw Registry.	2021-Q4

PHASE TWO - 2021/2022

Deliverable: To work with staff on modernizing the City's regulatory bylaws (on a priority basis) based on risk, liability, applicability, revenue generation, etc. in order to improve service to the public and provide for efficiencies across the organization. Bylaws would be drafted based on best practices using plain language to provide for better enforceability.

Some of this work has already commenced with work being done on the Animal Responsibility Bylaw and Ticketing Bylaws. Other bylaws that need addressing will be part of the 2021 work plan. The focus for 2022 would be to do a review of the bylaws that are identified through the Master Bylaw Registry project with more specific deliverables and tasks identified in the later part of 2021.

Deliverable: To develop a bylaw guideline document for staff

To assist subject matter experts on drafting bylaws, a bylaw guideline document would be developed for staff to use as a tool when developing their bylaws.

Work Breakdown Structure (Policy Renewal Project)

Phase One - 2021

Deliverable: Develop a Master Policy Registry

The City has a hard copy of a Council policy manual that contains several policies, which are divided into sections, by department. Some of the policies are in effect and posted on the internet (currently 46 posted in the internet). Others are still valid but outdated; others are historical.

In 2010 and subsequently 2016, Legislative Services developed a policy status sheet. This status sheet, along with copies of the policies, were sent to the applicable departments for review. Managers were asked to determine whether the policy was relevant and should remain as is, whether it needed amending, whether it was obsolete and should be repealed or unsure. At the time, it was also noted that some policies were administrative in nature and would be more applicable as a staff policy or appeared to be a procedure or guideline. To assist, staff was provided with definitions as to how to view the policy (i.e. is it a rule, guiding principle or statement vs. a process, method, practice). Feedback from the various departments was provided; however, the work was not concluded.

Tasks	Timeline for Completion
Present a report to Council with a list of policies that need to be repealed	November 23 rd GPC
Bring forward a revised Public Hearing process policy	November/December, 2020
Start Development of a Master Bylaw Registry	2021
To build on the work that was done in 2010 and 2016	*TBD

*Further work on the policies will be identified in 2021 in conjunction with the updates provided to Council on the bylaw project.

SUMMARY POINTS

- As part of Council's 2019 2022 Strategic Plan, one of the Governance action items identified was to have a comprehensive review undertaken on Council's bylaws and policies and then proceed with updating those that were outdated, ineffective or inconsistent with current objectives.
- An audit was conducted on the City's bylaws and Council policies and a project timeline, with work breakdown structures and deliverables was developed for moving the project forward.
