4. OTHER BUSINESS:

- (a) Nanaimo Affordable Housing Strategy and Nanaimo's Action Plan to End Homelessness (2018-2023) by Karin Kronstal, Social Planner

John Horn, Social Planner, explained that "Nanaimo's Action Plan to End Homelessness, 2018-2023" was produced under the direction of the Nanaimo Homelessness Coalition, and with the administrative support of the United Way Northern and Central Vancouver Island. The City of Nanaimo provided extensive technical and advisory support. The 2018 Action Plan is also informed by the input of community members and service agencies.

The Action Plan assists the development of strategies in support of actions that take place outside of the Government of Canada's funding framework, and helps strategically align the sector's efforts. The Action Plan identifies 10 specific priorities and will assist with future funding priorities and decision-making:

- 1) Better engagement with people at the perimeter of the shelter system
- 2) Creation of a day space/drop-in facility
- 3) Remap of social networks
- 4) Managing market pressures and income insecurity
- 5) Supportive housing
- 6) Support for personal and program transitions
- 7) Managing increasing acuity
- 8) Increased sector capacity
- 9) Considerations in serving Indigenous people
- 10) Prevention through agency coordination

Because the Action Plan contains items that are not within the City's purview, it is a separate supporting document to the Nanaimo Affordable Housing Strategy.

Karin Kronstal, Social Planner, provided a presentation on the "Affordable Housing Strategy" process to date. The process is currently in Phase 5: Final Strategy. She provided an update on the process to-date, vision statement, principles, five policy objectives, and policies. The planning process began in April 2017, and will conclude on 2018-SEP-17 when the finalized strategy is presented to Council for endorsement.

The Affordable Housing Strategy is the City's first comprehensive study of affordability across the housing continuum, which includes social, non-market and market housing. The Strategy establishes the City's role and priorities with regard to promoting affordable, appropriate, and accessible housing in Nanaimo over the next ten years (2018 - 2028). The Strategy identifies 23 policies aimed at achieving five key objectives:

- 1) Increasing the supply of rental housing;
- 2) Supporting infill and intensification in existing neighbourhoods;
- 3) To diversify housing forms in all neighbourhoods;
- 4) Continuing to support low income and special needs housing; and
- 5) Strengthening partnerships and connections.

Karin Kronstal, Social Planner, provided a brief overview of each objective and their related policy actions.

Committee discussion took place regarding the following:

- It was suggested that the paragraph at the top of page 38 of the strategy be moved to preface the Implementation Plan on page 35, to ensure that annual reporting includes a report on policy work done to-date in addition to targets that have been met or completed.
- The Action Plan contains much consultation and facilitation with non-profits. Is there an opportunity to bring those groups together on a regular basis to coordinate their efforts? John Horn, Social Planner, noted that the Nanaimo Homeless Coalition (also known as the Nanaimo Working Group on Homelessness) meets monthly and reviews the Action Plan during their meetings to ensure that sector priorities and efforts are being coordinated.

It was moved and seconded that the Community Vitality Committee recommend that Council endorse the Nanaimo Affordable Housing Strategy and endorse the Homelessness Coalition's Nanaimo Action plan to End Homelessness (2018-2023). The motion carried unanimously.

5. QUESTION PERIOD:

Dan Appell re: Methods of evaluating the efficacy of the policies contained within the Nanaimo Affordable Housing Strategy prior to its adoption?

Staff noted that only policies deemed feasible are included in the Strategy. Policies were researched based on best practices and by Staff and the consultants who have work on housing affordability across Canada. Once implementation begins, feedback will be received from partners and policies will continue to be evaluated in the local context.
