

INTRODUCTION & PROPOSAL

The proposal that we wanted to put before you is:

1. 3 storey residential rental building
2. consisting of 27 rental units each with 18 one bedroom plus den and nine two bedrooms that is approx 900 SF in size.
3. There is a minimum parking requirements of 42 stalls. 22 exterior stalls are provided and additional 20 sheltered underground that have access to 5 electric vehicle charging stations.
4. Minimum required 14 long term bicycles being provided in a secured underground storage
 - A. Exterior bicycle rack is also provided at the building entry from Verte Place culdesac
5. The main entry to the building is from the exterior parking lot along the north side and a second entry to the west from Verte Place. There is an additional entry/exit on the east of building 2.
6. Landscaping are carefully placed throughout the exterior north parking lot.
 - A. Cars parked against building 1 on parking stalls 17-19 will be hidden by the proposed trees.
 - B. Similarly on the opposite side against the north retaining wall, landscaping are provided at every 3-4 parking stalls
 - C. This shall help minimize the feel of a large parking lot along the front of the building.

FORMS AND SHAPE

① DP PRESENTATION ITEM 7 PARKING

1. The building has been divided into two parts to mitigate a long massive box development. Building one on the east side and building two has been set back 12.5 feet to help minimize a long massive roof.
 - A. Skylights and gable roof along the front and rear will also contribute to breaking the long roofline
2. The buildings are connected by way of exterior covered deck between building one and two.
3. The covered deck will shelter the main entry to the building below it.
4. Building one is situated away from the rear creek to minimize viewing impact from neighboring houses located on north east of the lot from 4163, 4165 & 4171 Verte Place. This will allow garbage truck to access the waste enclosure and allow access to the underground and rear exterior parking stalls.
5. Balconies and exposed timber post and beams along with gable roof on every side of the building will provide a break on the rectilinear cube design. This means that all units will enjoy private outdoor spaces on their balconies.
6. There are ample windows on all sides that will provide natural lights in the living spaces and sleeping area.
7. The open layout will provide the kitchen with natural lights from the exterior windows and sliding door to the balcony.
8. Skylights will provide natural lighting along the upper common corridor

6. The proposed east facade facing Verte Place will provide the appearance of a two storey single family dwelling looking directly from the Cul de sac facing Verte Place as shown on isometric view# 2 below.

SCALE:	
PROJECT NO. Project Number	DRAWING NO. A0.3

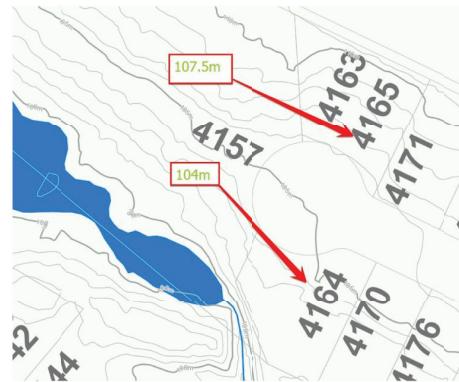

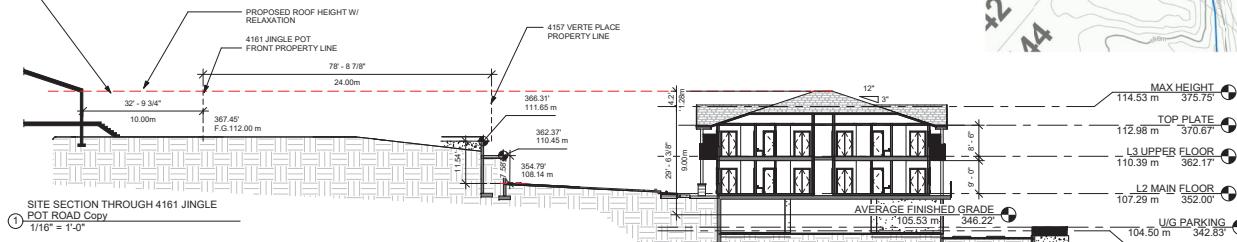

VARIANCE RATIONALE:

There is approx 27 foot average drop in elevation from the Jingle Pot property line to the rear of the building which poses a great challenge to accommodate a two storey residential above an underground parking and still meet the allowable 29.5 feet maximum building height.

The peak of the proposed 4:12 roof slope would require 4.5 feet relaxation in allowable height.

The cross section below illustrates the proposed roof peak at the same level as of the top plate of houses across the street of Jingle Pot road.

There is a retaining wall along Jingle Pot road property line that extends approximately 2'3" from road surface, steel guardrail will be provided on top of retaining wall to have min 3'6" guardrail.

VIEW FROM 4163-4165 VERTE BALCONY

The natural grade at entrance level of 4163/4165 Verte is 107m. As shown on the cross section above, 107m matches the proposed main floor elevation L2. Neighbor house on 4164 is completely behind the proposed building so it's side yard faces the covenant [REDACTED]

NOTES: * PLANT SIZES IN THIS LIST ARE SPECIFIED ACCORDING TO THE BC LANDSCAPE STANDARD, LATEST EDITION. CONTAINER SIZES SPECIFIED AS PER CNTA STANDARDS. BOTH PLANT SIZE AND CONTAINER SIZE ARE THE MINIMUM ACCEPTABLE SIZES. * REFER TO SPECIFICATIONS FOR DEFINED CONTAINER MEASUREMENTS AND OTHER PLANT MATERIAL REQUIREMENTS. * SEARCH AND REVIEW: MAKE PLANT MATERIAL AVAILABLE FOR OPTIONAL REVIEW BY LANDSCAPE ARCHITECT AT SOURCE OF SUPPLY. AREA OF SEARCH TO INCLUDE LOWER MAINLAND AND FRASER VALLEY. * SUBSTITUTIONS: OBTAIN WRITTEN APPROVAL FROM THE LANDSCAPE ARCHITECT PRIOR TO MAKING ANY SUBSTITUTIONS. TO THE SPECIFIED MATERIAL, UNAPPROVED SUBSTITUTIONS WILL BE REJECTED. ALLOW A MINIMUM OF FIVE DAYS PRIOR TO DELIVERY FOR REQUEST TO SUBSTITUTE. SUBSTITUTIONS ARE SUBJECT TO BC LANDSCAPE STANDARD - DEFINITION OF CONDITIONS OF AVAILABILITY.

ALL PLANT MATERIAL MUST BE PROVIDED FROM CERTIFIED DISEASE FREE NURSERY. PROVIDE CERTIFICATION UPON REQUEST.
