

Intimate Partner Violence Causes Brain Injuries

Let's start talking about it.

For every NHL Player who
has suffered a concussion,
7,000 Canadian women have
suffered a concussion through
intimate partner violence
(Mason & Donkelaar)

A Community Symposium for Positive Change
Thursday January 30, 2020 (9am-4pm)
Curling Club, 106 Wall Street, Nanaimo

Join us to better understand the intersection and impacts of intimate partner violence and brain injury, and to improve care for those affected. Through presentations, workshops, and discussion, you'll learn about current research, tools and resources, and future directions for support services from leading experts in the field. Lunch will be provided.

Then on **Thursday, February 6 (9:30 -11:30 am)** a dialogue for service providers and community will bring forward next steps and recommendations (Beban Park Social Centre).

Tickets: \$50 - Early Bird rate: \$25 (before Jan. 16th) - Community Tickets: FREE
