Dave,

Did a PRIME run today back from holidays.

There have been a further 9 calls associated to this address, 8; 2 are suspicious persons/vehicles, 6 are suspected drug trafficking and one mischief.

The neighbourhood is very vigilant and are reporting everything associated to this house. Of the 8 calls, I would say one was a valid concern with details such as people, bikes and vehicles coming and going between 9 pm and 6 am. The others are reported plates etc but no further details.

Morning [REDACTED]

You sent a letter over a few weeks ago (dated May 21) for this property. I haven't had an opportunity to draft a staff report to council on this yet, but will get to it very shortly. Would you kindly give me an update of any new nuisance calls since that time. Leah, would you also give me a summary of city calls.

Thanks,

Dave
