

An aerial photograph showing a proposed urban development. The central focus is a cluster of modern, multi-story residential buildings with light-colored facades and numerous balconies. Some balconies appear to have greenery. The buildings are situated on a slight rise, surrounded by lush green trees and landscaping. In the foreground, a wide, multi-lane road with a bridge crosses a river. The background reveals a sprawling cityscape with various types of housing, including single-family homes and commercial buildings, all nestled at the foot of large, forested mountains under a clear sky.

An aerial photograph showing a proposed multi-story residential development in a city. The development consists of several modern buildings with balconies and large windows, situated along a river. The surrounding area includes existing residential buildings, green spaces, and a road with a bridge. In the background, there are mountains and a forested area. The image is a composite, with the proposed buildings overlaid on a photograph of the existing city landscape.
