A1.3 FITTING OUR PLANS TOGETHER

Integration is at the heart of *City Plan – Nanaimo Reimagined*. Nanaimo’s existing plans already provide guidance created through previous processes, but there is overlapping, and at times diverging, information that needs to be brought together. *City Plan – Nanaimo Reimagined* combines existing policies and directions, incorporates new information, and lays a groundwork for a future of ongoing integration.

Our planning structure is a circle, recognizing that each component forms a necessary part of the integrated whole. Review descriptions of each component on the following page.

Figure 2: City Planning Structure

Great cities are guided by thoughtful plans that articulate **WHAT** they wish to achieve – their goals and policies – and **HOW** they will get there – their actions.
