Policy Directions

General support for:

Density + housing
focused in designated locations

“Right sized” parking
approach

Prioritizing
sustainable transportation

Policy Directions_{, cont.}

“Manage parking city-wide with a focus on right sizing parking...”

City Plan, C2.1.7

“Prioritize expansion and enhancement of walking, rolling, cycling, and transit routes to create an integrated mobility network.”

City Plan, C2.2.1

“Support removal of off-street parking minimums... in Downtown...”

City Plan, D4.3.32

“Use incentives to encourage the development of affordable and accessible rental and owned housing units. Consider providing additional density, parking relaxations...”

City Plan, C2.2.1

Bill 44. Small-Scale, Multi-Unit Housing (SSMUH)

No minimum parking requirement for SSMUH lot within 400 m of frequent transit

Maximum of 0.5 spaces per unit for lots within 800 m (recommended)

Bill 47. Transit Oriented Areas (TOAs)

No off-street parking required for residential uses in TOAs

Woodgrove, Country Club, VIU defined as TOAs

Bill 16. Transportation Demand Management (TDM)

New authorities to regulate TDM in new development

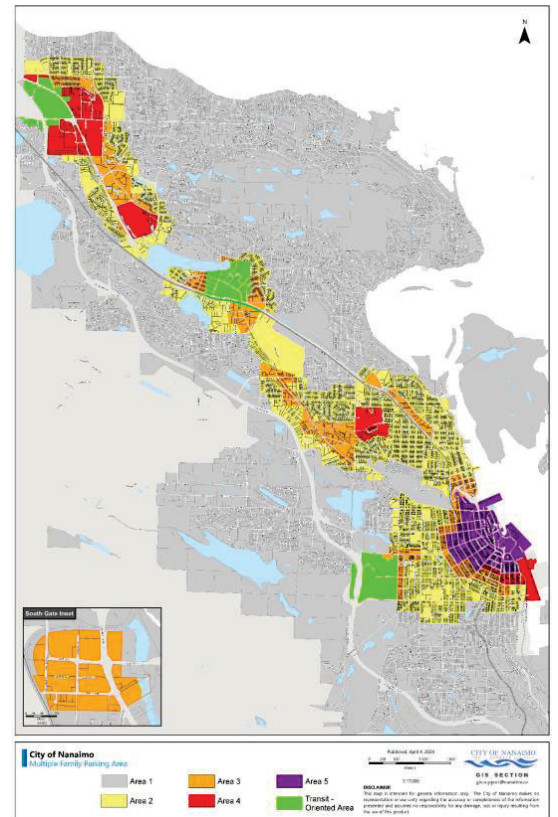

May apply to infrastructure and programs*

Recent Legislative Changes

Current Practices

Some observations on the current state

- Minimum parking supply rates vary by location and number of bedrooms for Multi-Family Residential uses
 - Downtown Nanaimo (Area 5) has the lowest supply requirements
- No minimum parking requirements for residential uses in TOAs
- Shared parking regulation to encourage efficient use
- Cash-in-lieu in place, limited uptake

Current Practices, cont.

Some more observations on the current state

Requirements are in place for the following, but with opportunities to improve...

Accessible parking

EV charging

Loading

Bicycle parking

Current Practices, cont.

And some more observations on the current state

Public parking management efforts focused in Downtown and hospital areas

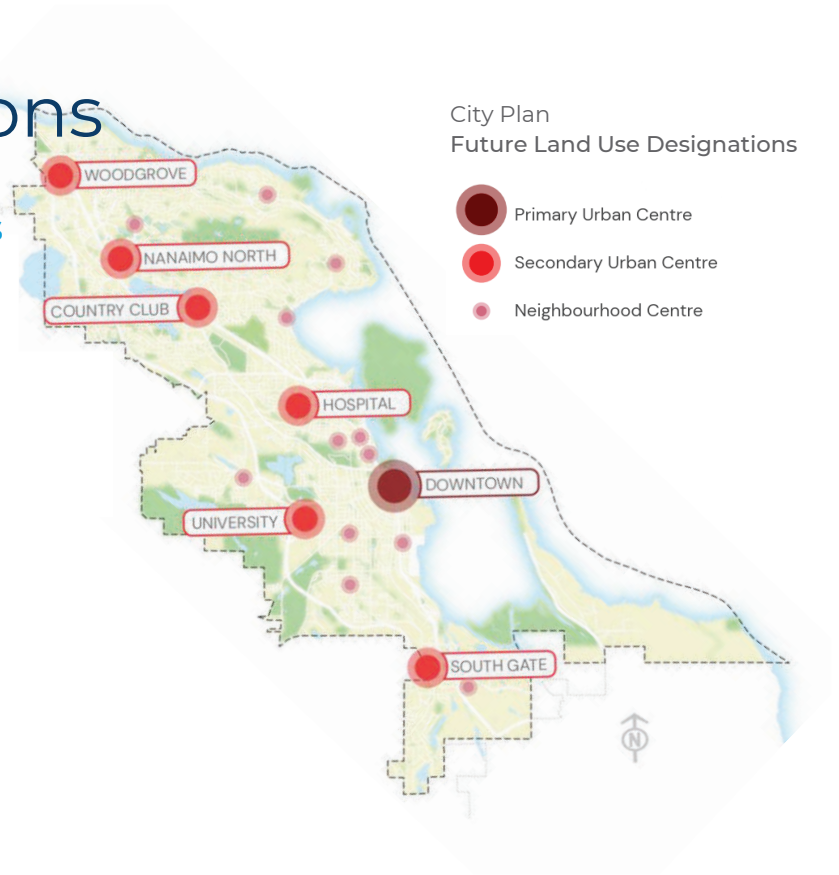

Expand public strategies likely as low parking / high density development occurs

Consideration for no parking in Secondary Urban Centres

Emerging Directions

1. Parking Supply Requirements to Match Policy Direction

No parking required in Transit Oriented Areas (per legislation)

No parking required in Downtown (per City Plan policy)

Consideration for no parking in Secondary Urban Centres

Consideration for reduced parking in other areas?

Emerging Directions

2. Supporting “Complete Mobility” including Alternatives to Private Vehicle Trip Making

Parking requirements that reflect access to mobility

Enhanced bicycle parking requirements

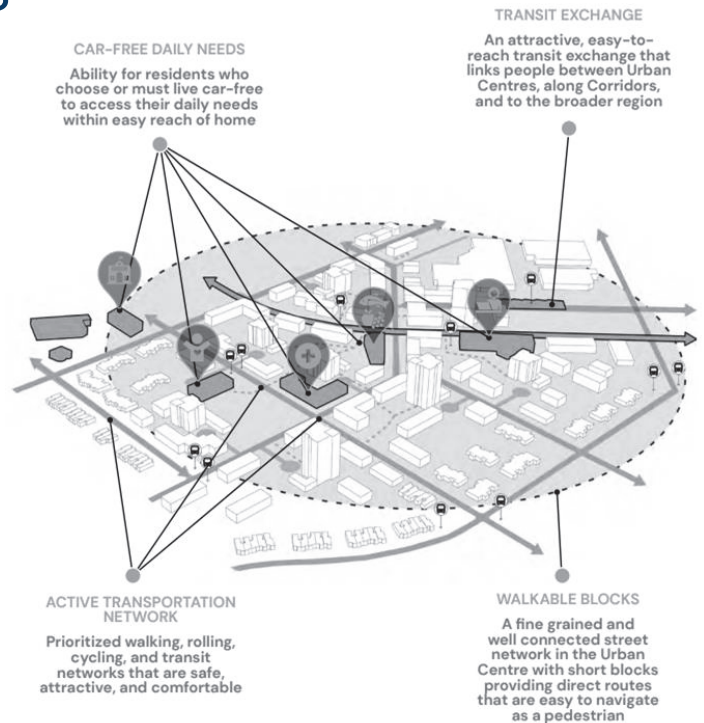

New regulation for active transportation amenities

Requirements for transportation demand management (TDM)

Regulations to “future-ready” emerging travel options

City Plan

What does a Connected Nanaimo look like in an Urban Centre?

Emerging Directions

3. A More Sophisticated Approach to Managing Curbside and Public Parking Resources

Understanding the policy and regulatory changes required to reflect increasing pressure and dynamic use of public curb space

Thank you!
